EXPLORATION ACTIVITY AND FUNDING UPDATE

The Directors of Peninsula Mines Limited (“PSM” or the “Company”) are pleased to announce that Aurora Minerals, its major shareholder, will provide an unsecured loan of \$250,000 to the Company. The funds advanced will be applied principally to continuing exploration activities in Korea, business development opportunities and working capital.

Managing Director Chris Rashleigh noted: *“The Company is delighted with the support being afforded by Aurora. The 2014 drill programme at Daehwa will be completed within the next two weeks with assay results becoming available early in the New Year. The Company is anticipating further support in 2015 from the Korean Government entity, KORES, to continue our work at Daehwa. Additional funding sources are also being investigated for the gold-silver-base metals projects Jinan and Osu, and the loan funds afforded by Aurora will greatly supplement the Company’s work in taking these projects forward. Peninsula has already taken substantial steps to limit its outgoings. This includes the recently approved Salary Sacrifice Share Plan. In addition, the directors have agreed to forego any fees for the three months from November 2014 to January 2015, while senior management, employees and consultants have agreed to a 50% reduction in remuneration for the same period.”*

- The Loan will be made available for drawdown as a single tranche of the full amount of the Loan Amount on the Advance Date of the Loan Agreement to the bank account nominated by the Borrower.
